

Ozcare Influenza Vaccination Clinics

Ozcare provides vaccination services across Queensland from locally based offices. Ozcare will vaccinate your staff at Clinics operated in your workplace, at times convenient to you, or staff can receive vaccination services from Clinics operated from one of Ozcare's local offices.

Ozcare will designate a qualified Nurse Immuniser to personally liaise with your service, to determine the best options and times for your Clinic and to ensure everything runs smoothly on the day.

The best time to arrange your Clinic is from January onwards. Ozcare Flu Clinics in 2011 will commence at the beginning of the flu season - generally March to April.

Vaccination Options and Costs

Vaccination costs are negotiated on application, with the choice of hourly or per person rates.

Ozcare travels extensively to provide Flu Clinics. In some rural and remote communities, it may be necessary to recover the cost of accommodation, flights, meals etc. These costs will be advised when Clinics are arranged.

Successful Workplace Clinics

Ozcare can provide staff education and a range of resources are available to ensure a successful Clinic on the day. If you have any questions about preparation for a Clinic, you may contact Ozcare at any time.

Reports on the outcomes of Influenza Clinics for the workplace can be provided to suit your human resource requirements.

Safety

Ozcare provides Nurse Immunisers and practices under a Health Management Protocol approved by Queensland Health.

Ozcare is a not-for-profit organisation and all income generated from the Flu Clinics is utilised in our service delivery.

**Bookings can be made
through our website www.ozcare.org.au,
by contacting your local Ozcare Office or
by calling Ozcare Head Office on (07) 3028 9165**
